

discussion and refinement at one or two subsequent meetings. Finally, a revised proposal will be brought to the Work Group for approval. Proposals that have been approved by the Work Group may be the topic of public workshops, and will be forwarded to the full Bay-Delta Advisory council for comment and to the CALFED agencies for approval. (See Figure 1).

The Work Group will first consider urban water conservation, then agricultural water conservation, followed by land fallowing and water recycling. A proposed schedule of meeting dates and discussion topics is presented in Figure 2.

Meeting Date	Urban Water Conservation	Ag Water Conservation	Land Fallowing	Water Recycling
June 27, 1996	Explore Issues			
July 24*	Discuss Proposal	Explore Issues		
August 21*	Approve Proposal	Discuss Proposal		
September 18*		Discuss Proposal	Explore Issues	
October 16*		Approve Proposal	Discuss Proposal	Explore Issues
November 13*			Discuss Proposal	Discuss Proposal
December 11*			Approve Proposal	Approve Proposal

\* Dates tentative

### Relationship to Other Work Groups

BDAC has established Work Groups to examine several subjects related to solution alternatives. Two of these Work Groups include Financing and Assurances. It is likely that institutional and policy approaches considered by the Water Use Efficiency Work Group will need to be coordinated with these other Work Groups.
